## Overview

---

### What is 100up's off-grid Solar System?

Explore 100UP's off-grid solar systems—custom solutions for homes, farms, and businesses across Australia. From compact kits to large-scale setups, we deliver reliable energy independence with solar, battery, and backup systems built for Aussie conditions.

### What is a solar powered shipping container?

At SCS Australia, we create solar powered shipping containers that combine renewable energy technology with the strength and mobility of a shipping container. These self-sufficient units are ideal for powering off-grid operations, mobile businesses, events, and remote projects—all while reducing carbon footprint and cutting energy costs.

### How much does an off-grid solar system cost?

Composed of three parallel systems, this setup guarantees uninterrupted power. The ground-mounted system typically adds an extra cost of around \$3,000 to \$4,000 compared to roof installations. Explore 100UP's off-grid solar systems—custom solutions for homes, farms, and businesses across Australia.

### Is a 100kW Solar System a good investment in Australia?

With broad areas that receive consistent sunlight, it's an excellent place for commercial 100kW solar system installation in Australia. Although Melbourne is known for its unpredictable weather, a 100kW system can still be a good investment, given the state and federal incentives for renewable energy.
