# 10MW Solar Energy Storage Container for Farms

## Overview

---

What is a 10 MW solar farm?

A 10 MW solar farm is being built in the United Arab Emirates. The farm will cover an area of 26 hectares and is expected to produce enough electricity to power 3,500 homes. The project is being developed by a consortium of companies including Abu Dhabi National Energy Company, JinkoSolar, and First Solar.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

Why should you choose a solar storage container?

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy. Lower energy/maintenance costs ensure operational savings.

What is LZY solar storage?

LZY offers large, compact, transportable, and rapidly deployable solar storage containers for reliable energy anywhere.
