

150-foot folding container for chemical plant

Overview

How many litres can a chemical storage container hold?

The IBC for liquid chemicals has a 500 to 3,000 litre capacity. This chemical storage container has a base constructed from galvanized steel, aluminium or stainless steel, depending on your needs. We offer many customization options for the chemical container to ensure it adapts perfectly to your specifications and the constraints of your sector.

How do duragreen® collapsible containers fold?

DuraGreen® collapsible containers fold easily, and their doors are made with fully articulating hinges that allow an open door to lay flat against the side of the container for tighter, safer storage.

What is a goodpack intermediate bulk container (IBC)?

Managing the safe transport and storage of chemicals is a major challenge for businesses. It requires solutions that not only ensure safety and compliance with regulations but also align with sustainability and cost-efficiency goals. Goodpack's Intermediate Bulk Containers (IBCs) provide an innovative, sustainable approach to meet these demands.

What is a 70 x 48 bulk container used for?

Collapsible, stackable, and easy to assemble, the 70" x 48" bulk container can be used to replace other forms of transport packaging such as metal racking. These containers feature a four-way forklift entry with four drop doors for easy access. Applications: Automotive, appliance, and transportation equipment.
