

# **200kWh Energy Storage Container for Nairobi Wastewater Treatment Plant**

## Overview

---

What is a containerised portable waste water treatment plant?

A containerised portable waste water treatment plant gives clients the option to relocate it onsite or easily transport it to new sites as necessary. In addition to that, the systems are modular so that they can work together in a variety of combinations effectively dealing with variable waste water volumes to achieve any effluent quality.

Who is nature systems Kenya Ltd?

Nature Systems Kenya Ltd, offers steel containerised solutions in a range of sizes, to a wide and varied scope of commercial and domestic applications. Topia is the water optimisation company of choice, elevating the hydration experience for leading brands who seek out sustainable solutions, because the planet needs us to.

What is an intelligent containerised waste water treatment plant?

Intelligent containerised waste water treatment plants are ready to use immediately on delivery. A containerised portable waste water treatment plant gives clients the option to relocate it onsite or easily transport it to new sites as necessary.

How do mobile sewage treatment plant containers work?

All our mobile sewage treatment plant containers operate in both underload and overload conditions Fully automatic operation and simple maintenance by unskilled staff The modular system allows for rapid expansion and addition of further treatment processes The systems are fully transportable and can easily be relocated and reinstalled at new sites
