

21700 battery box

Overview

What are 21700 batteries?

21700 batteries are lithium rechargeable batteries that come in various versions with differences in battery capacity, pulse rate, drain current, charging current, and battery terminals, among other things.

What is a 20700 & 21700 battery case?

20700 & 21700 battery cases are essential protective enclosures designed to prevent physical damage, electrical shorts, and accidental exposure of lithium-ion cells. Since 20700 and 21700 batteries share nearly identical dimensions, these cases provide universal fitment for secure, compliant storage and transportation.

How big is a 21700 battery storage box?

Moreover, the 21700 battery storage box features an automatic pressure equalization valve to balance interior pressure and keep opening and closing smoothly. Size 7.2x5.2x4.1". It should be a good partner for organizing your batteries. Some of these items ship sooner than the others.

Are 21700 lithium batteries compatible with a button-top battery?

Compatible with 21700 flat-top lithium batteries. Not designed for button-top or protected batteries. The brand applies a unique Transparency code to each item. We verify this code before shipping. You can verify this code using the Amazon Shopping app to confirm it comes from the brand and view additional product details.
