

60kWh Solar Container for Sports Venues

Overview

How can a sports stadium benefit from solar power?

Show a red card to carbon emissions and power your sports stadium with renewable, sustainable energy to reduce electricity bills by up to 30%. Shawton Energy works with sports stadiums to harness solar power by installing 100% fully funded, high-quality Solar PV systems, utilising existing rooftop space.

How many solar panels does a football stadium have?

This Solar PV system would be a 632kWp system comprising of 1536 high-quality solar panels, split between their stadium across two stands and also at their training facility to off-set high energy demand from their fitness facilities.

How does the Johann Cruijff Arena use solar energy?

The Johann Cruijff Arena in Amsterdam has 4,200 solar panels on its rooftop and generates 930,000kw hours of electricity each year. This green energy is used to balance differences in energy supply and demand, provide clean backup power in the event of a power cut and provide energy to the grid when not in use by the stadium.

How does Shawton energy work with sports stadiums?

Shawton Energy works with sports stadiums to harness solar power by installing 100% fully funded, high-quality Solar PV systems, utilising existing rooftop space. We work with the world's best-quality solar technology providers to create peace of mind for our clients.
