

BUHLE POWER

Albanian energy storage solar project manufacturer

Overview

What are Albania's new solar projects?

These solar projects are expected to add 240 MW of capacity, significantly enhancing the country's renewable energy portfolio. The French renewable energy company Voltalia has announced plans to build new energy projects in Albania, including the Karavasta and Spitalla solar parks.

Why are solar panels being developed in Albania?

The ongoing development of solar panel projects in Albania is a testament to the country's commitment to renewable energy. These projects not only contribute to Albania's energy security but also play a crucial role in reducing carbon emissions and combating climate change.

How much does a solar power plant cost in Albania?

In April 2025, Albania's Ministry of Energy and Infrastructure unveiled plans to construct a 3.3 MW solar power plant on 5.2 hectares of land in Korça. The project, estimated to cost around 2.7 million euros, is set to be completed in 12 months. The Korça solar plant is part of a broader strategy to boost Albania's renewable energy capacity.

What is the largest solar power plant in Albania?

In late 2023 the 140MW Karavasta solar power plant was completed, having taken Voltalia of France 15 months to build, it is the largest in Albania to date. A 100 MW solar power project called Spitalla in Durrës area is planned to be built next. Albania has enormous potential for electric energy from wind power.
