

# **Asian solar container battery factory under construction**

## Overview

---

A 500 MW/2,000 MWh standalone battery energy storage system (BESS) in Tongliao, Inner Mongolia, has begun commercial operation following a five-month construction period, reflecting China's accelerating rollout of large-scale storage to firm and integrate high penetrations of wind and solar generation. How many Chinese battery companies have built factories in Southeast Asia?

Nearly 10 battery companies built factories in Southeast Asia. At present, Chinese domestic power battery companies accelerate the formation of groups to go abroad, with core competitiveness of high-end products to overseas markets, accelerate the pace of "going out" to fill the international capacity gap.

What is the future of battery energy storage in Southeast Asia?

Bloomberg New Energy Finance predicts that by 2030, the cumulative installed capacity of battery energy storage in Southeast Asia will reach 4.8GW/9.7GWh, an increase of more than five times from now. Second, the low cost and government investment incentives in Southeast Asia.

Where are China's power battery factories located?

According to incomplete statistics, up to now, China's power battery companies have built, under construction and planned to build overseas factories with a cumulative capacity of more than 300GWh, of which Southeast Asia, South Asia and other places have also become key markets of concern.

Will Sunwoda build a battery factory in Hungary?

In July 2023, Sunwoda announced that it would invest in the construction of a battery factory in Hungary with its own and self-raised funds, with an investment of no more than 1.96 billion yuan, mainly engaged in the manufacture of lithium-ion batteries and power battery systems.
