

# **Battery air intake system container base station**

## Overview

---

What is a containerized battery energy storage system?

Our's Containerized Battery Energy Storage Systems (BESS) offer a streamlined, modular approach to energy storage. Packaged in ISO-certified containers, our Containerized BESS are quickly deployable, reducing installation time and minimizing disruption.

What is C&I battery energy storage system?

Our C&I Battery Energy Storage System (BESS) is a high-capacity industrial battery storage solution, grid-connected to optimize energy usage and reduce costs.

What is a battery container?

A battery container is a large, modular enclosure used to house and protect energy storage systems, such as lithium batteries, from environmental factors.

What is a 1MWh Battery Energy Storage System?

A 1MWh Battery Energy Storage System, such as PKENERGY's 20ft container solution, stores energy equivalent to 1 megawatt-hour. It includes 5 clusters connected to a 500kVA power conversion system (PCS) for output at 340-440VAC. The system also includes a 500kW three-phase inverter with a 98.3% conversion efficiency and a 300kW inverter for DC to AC conversion.
