

# Belize Solar System Production

## Overview

---

Does Belize use solar power?

Belize uses solar power on a smaller scale, with the Government having installed solar micro-grids and solar-powered streetlights in rural communities not yet connected to the national grid. The Government of Belize, along with Belize Electricity Limited (BEL), intends to launch a pilot project introducing electric vehicles.

Does the University of Belize have a solar system?

The University of Belize has a solar photovoltaic (PV) system that supplies 0.1% of the country's electricity supply.

Will the government of Belize invest in solar energy?

The Government of Belize intends to encourage investment in utility solar-energy facilities. However, it has not yet publicly announced a request for proposals. On a smaller scale, the Government of Belize has installed solar micro-grids and solar-powered streetlights in rural communities not yet connected to the national grid.
