

Boston solar Energy Storage Power Station

Overview

How many energy storage facilities are there in Massachusetts?

The Massachusetts Energy Siting Facilities Board has approved two energy storage facilities with a combined capacity of 400 MW/800 MWh. This decision overturns previous rulings that hindered the development of these facilities. Once operational, they will fulfill 80% of the state's 1 GWh energy storage deployment target for 2025.

How much storage capacity does Massachusetts have?

It was reported last year that Massachusetts had a cumulative storage capacity of 569MWh, with an additional 8,806 MWh in the development pipeline. Plus Power's 150MW/300MWh Cranberry Point BESS located in the Town of Carver is expected to make up a large proportion of the 1GWh total, with commercial operations scheduled for summer this year.

Is ISO New England planning a 300MW Bess in Boston?

System operator ISO New England has given the go-ahead for a 300MW/1,200MWh indoor BESS located in Boston, Massachusetts under development by developer and IPP Flatiron Energy. ISO New England approved a proposed plan application associated with the project in the form of a letter published on the system operator's website on 6 January, 2025.

Where will Bess batteries be housed?

Unlike the majority of new BESS facilities, where individual battery cells are located outside utilising a containerised approach, Flatiron is proposing to house the batteries indoors within a new two-storied building (pictured), designed by Boston-based architectural firm RODE.

Boston solar Energy Storage Power Station

[Flatiron Energy Secures Approval for 300-MW Battery Project](#)

Jan 14, 2025 · Flatiron Energy's groundbreaking 300-MW battery storage project in Boston aims to enhance reliability and champion environmental justice by 2028. Powering a greener future ...

[Massachusetts Bets Big on 5,000 MW of Energy Storage by ...](#)

May 30, 2025 · Massachusetts' energy storage mandate requires investor-owned utilities to secure 5,000 megawatts (MW) of storage by 2030.

[Streamfield Energy Storage](#)

Nov 21, 2025 · Jupiter Power is proposing to build and operate the Streamfield Energy Storage Facility, a 200-megawatt battery energy storage system in Westfield, Massachusetts. The ...

[Flatiron Energy gets green light for 1.2GWh indoor BESS in Boston](#)

Jan 10, 2025 · A render of the building that would house the BESS project. Image: Flatiron Energy / System operator ISO New England has given the go-ahead for a 300MW/1,200MWh indoor ...
