

# **Canberra Solar Container 60kWh**

## Overview

---

How much energy can a 5kw solar system generate in Canberra?

Shop around for the best feed-in tariff rates for optimal savings. Strong Solar Energy Potential in Canberra: With an average of 4.8 sun hours per day, a 5kW system can generate approximately 18 kWh daily—enough to cover much of a typical household's energy needs.

How much does a solar system cost in Canberra?

Solar Choice regularly publishes articles with indicative pricing for PV systems in Australia's capital cities (including Canberra) in our Solar Choice Price Index. Based on the price index data from March 2025, we can see that in Canberra a typical 6 kw solar system would cost \$5,420 on average after deducting the STC rebate and including GST.

Which Solar System is best for Canberra Homes?

Sizing Your Solar System for Maximum ROI: The 6.6kW system is the most popular for Canberra homes, balancing affordability with energy production to achieve faster returns on investment.

What is a solar powered shipping container?

At SCS Australia, we create solar powered shipping containers that combine renewable energy technology with the strength and mobility of a shipping container. These self-sufficient units are ideal for powering off-grid operations, mobile businesses, events, and remote projects—all while reducing carbon footprint and cutting energy costs.
