

# **Commercial solar power generation system in Jerusalem**

## Overview

---

What is Israel's largest solar project?

Israeli solar developer Teralight said in a recent statement that it has started operating the country's largest solar project, Ta'anach 1. The 150 MW solar array is located in the Jezreel Valley of northern Israel and is projected to annually generate 310 GWh of solar energy.

Is solar energy cost-competitive in Israel?

In Israel, solar technology has progressed so much that it is nearly cost-competitive with fossil fuels. The Negev Desert's high yearly solar incidence has fostered an internationally recognized solar research and development industry.

Where is the largest photovoltaic power plant in Israel?

the largest photovoltaic power plant in Israel was built in December 2014 at Ramat Hovav, over a risky dumpsite.

What is Israel's biggest PV project?

Teralight has activated Israel's biggest PV project, the 150 MW Ta'anach 1 array, which will produce 310 GWh of energy per year. The facility will be expanded next year with the 104 MW Ta'anach 2 installation, featuring 440 MWh of energy storage.
