

Costa Rica Solar Container 200kW

Overview

Who is the target market for solar energy in Costa Rica?

According to the Costa Rican Institute of Electricity (ICE) and the Costa Rican National Power and Light Company (CNFL), both government entities, the target market for solar energy in Costa Rica, remains to be households or companies that consume between 200kw/h and 3,000kw/h. ICE and CNFL have been installing photovoltaic systems.

Can a warehouse use solar energy in Costa Rica?

Solar energy has become an increasingly popular option for a variety of sectors, and warehouses are no exception. In Costa Rica, with its abundant solar radiation, this renewable energy source offers a number of benefits that can transform the way your facility operates.

How many solar systems are installed in Costa Rica?

ICE has installed 2,559 systems in homes, 649 systems installed for community activities, and 132 systems installed in conservation areas. There are three major solar parks in Costa Rica; Juanilama by Coopeguanacaste, Pocosal by Coopelesca, and Valle Escondido that will be built in 2021 by BMR Energy, contracted by ICE but not in use.

Can a company sell solar panels in Costa Rica?

Most companies selling solar systems are assembled Asian solar panels with some U.S. made components. In 2016, the Costa Rican government approved a new regulation which allows individuals and companies to produce solar energy (up to 15 percent of the users per district) and sell up to 49 percent of their excess production back to the grid.
