

Cuban electrical appliance repair solar container outdoor power

Overview

How long does it take to solve Cuba's energy crisis?

According to Piñón, solving Cuba's energy crisis would require "three to five years" and up to \$8 billion. Faced with this grim prospect, Cubans are not optimistic.

Why are Cuba's online shopping pages so unaffordable?

As blackouts increase, Cuba's online shopping pages are inundated with ads for rechargeable fans, lamps with chargers and charging stations — mostly imports from the United States and Panama — making them unaffordable for many.

When do people refill cooking gas canisters in Cuba?

People wait to refill their cooking gas canisters in Alamar, Havana province, Cuba, late Saturday, May 31, 2025. (AP Photo/Ramon Espinosa).

Did Natividad Hernández invest in solar panels?

Natividad Hernández, with slightly more resources than the Bahía neighborhood family, invested in solar panels, but her budget didn't allow for installing batteries and other components, limiting their use to daytime hours and when there's some grid electricity.
