Energy Storage Plant Management System in Cebu Philippines

Overview

Does Aboitiz Power have a hybrid energy storage system in Cebu?

Aboitiz Power Corporation, one of the Philippines' major utilities, has launched a project that reflects this shift toward hybrid infrastructure. The company is constructing a 30-megawatt hybrid Battery Energy Storage System (BESS) in Cebu, in collaboration with East Asia Utilities Corporation.

Will Bess be the first large-scale energy storage system in Central Visayas?

Slated for commissioning in the first half of 2026, the project is poised to become one of the first large-scale energy storage systems in Central Visayas. MANILA, Philippines — Aboitiz Power Corp. is building a 30-megawatt hybrid battery energy storage system (BESS) project within the Mactan Economic Zone in Cebu.

What is a hybrid energy storage system in Central Visayas?

Considered one of the first large-scale energy storage systems in Central Visayas, the hybrid BESS will provide ancillary services by storing surplus electricity and releasing it to the grid when needed to help stabilize power supply.

What is Central Visayas energy storage system?

Slated for commissioning in the first half of 2026, the facility is one of the first large-scale energy storage systems in Central Visayas. It aims to support rising power demand from industries and businesses in the area and enhance grid stability amid the energy transition.
