

# Energy storage project 30MWH

## Overview

---

Is Yonden engineering working on a 10mw/30mwh battery storage facility?

(Image: Yonden Engineering) Yonden Engineering and eight partners are working together on a 10MW/30MWh grid-scale battery storage facility in Sapporo City, Hokkaido, the Shikoku Electric Power-owned company announced on March 27, 2025. The “Hokkaido Sapporo Power Storage Station” is expected to come online in April 2027.

Where is China's first large-scale flywheel energy storage project?

From ESS News China has connected to the grid its first large-scale standalone flywheel energy storage project in Shanxi Province's city of Changzhi. The Dinglun Flywheel Energy Storage Power Station broke ground in July last year.

Where will the energy storage system be built?

The industrial scale energy storage system to be built in Riihimäki, Finland will mainly serve as a fast grid balancing unit in Fingrid's reserve market. The energy storage system will be part of Merus Power's comprehensive maintenance and operation service, like our previous energy storage systems.

When will the energy storage system be completed?

The energy storage system is planned to be completed during spring 2026. The industrial scale energy storage system to be built in Riihimäki, Finland will mainly serve as a fast grid balancing unit in Fingrid's reserve market.
