

European Solar Panel Power System

Overview

What is Solarpower Europe?

SolarPower Europe is the award-winning link between policymakers and the solar PV value chain. Get to know the SolarPower Europe team working to transform the European energy system. Get to know everything about solar power. Interested in joining SolarPower Europe?

How big is the Europe solar PV market?

The Europe solar PV market size crossed USD 63.1 billion in 2024 and is set to register at a CAGR of 7.1% from 2025 to 2034, due to the growing focus on green energy and net zero initiatives.

What percentage of European electricity comes from solar energy?

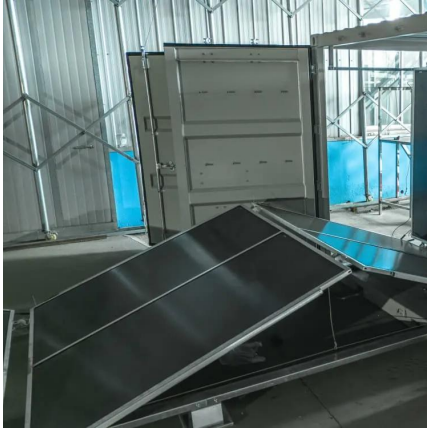

In 2024, 46.9% of the electricity generated in the EU came from renewables and 22% of renewable electricity came from solar energy (Eurostat, March 2025). June 2025 was the first month in history where solar energy was the main source of electricity generated in the EU at 22%. Source: SolarPower Europe.

How much solar power is installed in the EU?

About 2.3 GW of concentrated solar power has been installed in the EU since 2013, but most new projects take place outside of the EU. Solar thermal technologies are used mainly to produce domestic hot water in residential buildings and industry through heat collectors.
