

Factory price solar powerbox in London

Overview

How much does a solar & battery system cost in London?

It costs roughly £11,307 to buy and install a 4.5 kilowatt-peak (kWp) solar & battery system in London. This includes 10 solar panels, each with a 450-watt peak power rating, along with a 5kWh battery.

How much do solar panels cost in the UK?

How much do solar panels cost?

Solar panel costs in the UK typically range from £4,000 to £10,000, depending on your property size, energy usage, and system specifications. Long-term savings and government incentives can help offset upfront costs, with most homeowners breaking even in just over 15 years.

How many homes in London have solar panels?

56,739 homes in London have had solar panel installations certified by the Microgeneration Certification Scheme (MCS), as of June 2025. Across the capital's 32 boroughs and the City of London, that means 1.7% of all households have installed solar panels.

Do solar panels work in London?

London receives more sunlight than most areas of the UK. Solar panels only require daylight to work, but they do produce more electricity under direct sunlight – which is why it's great news for solar homes that the capital is relatively sunny. It varies across the city, though.
