

Funafuti mining UPS explosion-proof uninterruptible power supply

Overview

Mine flameproof uninterruptible power supply box (hereinafter referred to as "power box") is suitable for underground coal mines in explosive environments, and is specially designed to provide DC power supply completely independent of the power supply system for power supply equipment such as high-voltage explosion-proof switches and low-voltage feed switches in the underground Electrical substation; The power box integrates advanced lithium battery matching technology, charge and discharge management technology, balance technology, explosion-proof technology, communication bus technology, display technology, etc., providing stable and reliable backup power supply for electrical equipment.
