Free shipping on all breaker orders over 60 pieces - Continental US Only. Contact 0 item(s) - \$0.00 for more information in your home shop.

What is a GFCI / GFI circuit breaker?

Shop our ground fault (GFCI / GFI) circuit breakers, or Residual Current Device (RCD), which offer GFCI protection by shutting off electric power when they sense an imbalance between the outgoing and incoming current.

How do GFCI circuit interrupters work?

Ground fault circuit interrupters (GFCI) guard against accidental electrocution by monitoring the current traveling to and from an electrical load. A difference in current greater than 5 mA triggers a manually resettable electrical disconnect which quickly isolates power from the load.

Where can I buy GFCI in Singapore?

Find a huge range of GFCI at element14 Singapore.
