

**BUHLE POWER**

# **Huawei energy storage batteries air shipment to Mexico**

## Overview

---

Are wet batteries safe to ship internationally?

Like lithium batteries, there are strict regulations to follow when shipping wet batteries internationally. An IATA Dangerous Goods label must be attached, along with the correct UN number and shipping name for the particular type of batteries.

What types of batteries can I mail or ship internationally?

There are many types of batteries that have different requirements when you wish to mail or ship them internationally: Wet batteries, also known as flooded lead-acid batteries, are commonly found in vehicles and backup power systems.

Can I ship lithium-ion batteries by air?

When you're shipping lithium-ion batteries by air, it's essential to follow specific regulations regarding their state of charge (SoC). The SoC, which reflects the battery's charge level compared to its full capacity, must not exceed 30% during transit.

Can You ship lithium hydride batteries internationally?

While not as strictly regulated as lithium batteries, there are still guidelines to follow when shipping dry cell and nickel-metal hydride batteries internationally. The safest way to ship batteries is within the device they power. Ensure terminals are protected (e.g., with tape or caps) and pack the device to prevent accidental activation.

## Huawei energy storage batteries air shipment to Mexico

### [Energy Storage System Products List , HUAWEI Smart PV ...](#)

Energy Storage System Products List covers all Smart String ESS products, including LUNA2000, STS-6000K, JUPITER-9000K, Management System and other accessories product series.

### [Energy Storage Solution \(ESS\) , HUAWEI Smart PV Global](#)

Cell to Grid Safety Huawei's Smart String Grid-Forming ESS ensures robust protection through five layers of integrated safety design, from individual cells, battery packs, racks, systems, and ...
