

Maseru Communications Building 5G Base Station

Overview

How many 5G stations are there in China?

As of January 2025, China had 4.25 million 5G base stations, a figure expected to reach 4.5 million by the end of the year. More than 1 billion 5G connections are live, accounting for over 50% of all mobile connections in the country, the GSMA executive added. “We see the impact everywhere,” he said.

Is China a leader in 5G implementation?

He also pointed to China as a leader in terms of 5G implementation. As of January 2025, China had 4.25 million 5G base stations, a figure expected to reach 4.5 million by the end of the year. More than 1 billion 5G connections are live, accounting for over 50% of all mobile connections in the country, the GSMA executive added.

Is China launching a 5g-ad network?

China Unicom and Huawei have created a 5G-Advanced intelligent network serving more than 10 million people in Beijing, while China Telecom’s private 5G-Ad network at Tianjin Port has increased operational efficiency by 20%, he said. “The potential is clear. The next phase is about scale,” Badrinath said.

Should the telecom industry complete the 5G journey before 6G?

SHANGHAI—The global telecom industry must complete the 5G journey before turning fully to future technologies like 6G, said GSMA director general Vivek Badrinath during his keynote at Mobile World Congress Shanghai 2025, taking place this week in the Chinese city.
