

Metal clad switchgear factory in Niger

Overview

What is a metalclad switchgear?

Metalclad Switchgear (5kV to 38kV): Our metalclad switchgear is suitable for both indoor and outdoor installations, providing reliable power distribution in harsh environments.

What is air insulated metal clad MCL series switchgear?

ASTOR branded Air Insulated Metal Clad MCL Series Switchgears are designed according to IEC 62271-200 standard for using up to 40.5kV. It always fulfill the needs with flexible designs which are suitable for the projects. MCL Series Metal Clad Switchgears are produced to be used in places where the maximum service continuity is desired.

What is a switchgear Assembly?

A switchgear assembly completely enclosed on all sides and top with sheet metal (except for ventilating openings and inspection windows) containing primary power circuit switching and/or interrupting devices with buses and connections and possibly including control and auxiliary devices.

What is a custom manufactured switchgear?

Our custom manufactured switchgear solutions are designed to meet companies' specific power distribution equipment needs, and we are known as the preferred choice among custom switchgear manufacturers. We offer a wide range of stainless-steel, metal-enclosed, and metal-clad switchgear, as well as switchboards ranging from 208V to 38kV.

Metal clad switchgear factory in Niger

[Technical Specification Metal-clad Switchgear](#)

Mar 13, 2024 · Technical Specification Metal-clad Switchgear Technical Specification Metal-clad Switchgear This specification covers the basic design and functional requirements medium ...
