

# Namibia Civilian solar System

## Overview

---

Does NEC offer solar energy in Namibia?

Solar energy is a free energy source and will never disappear. Therefore, NEC has been promoting solar energy since the early 1970s and offers solar system in Namibia. NEC Energy for solar water heater systems used in domestic and / or commercial applications as well as solar PV systems to generate electricity for various applications.

How will solar power benefit Namibia?

The generation of solar power will complement Namibia's available green energy portfolio, such as hydro-electricity, which already constitutes more than two-thirds of our installed power capacity. Electrifying key parts of our economy and of our neighbours will spur unprecedented economic activity and growth for Namibia and Southern Africa.

Why should you choose Solahart solar energy in Namibia?

Solahart has installed more than one million solar panels systems around the world and is backed by over 65 years as Australia's energy experts. If it comes to quality, efficiency, and long-term reliability, remember, it's not just solar, it's Solahart. If you need solar energy in Namibia, choose only the best.

How much solar radiation does Namibia have?

The country's average high direct solar insolation is 2200 kWh/m<sup>2</sup>/year, with a cover of minimum clouds . The southern region of Namibia experiences -on average- 11 hours of sunshine/day, and an average direct solar radiation of 3000 kWh/m<sup>2</sup>/year .
