

New Zealand BESS sells brand new uninterruptible power supply price

Overview

Where will Bess be installed in New Zealand?

Confirmed yesterday (19 September), the 2-hour duration BESS will be installed at Huntly Power Station on the country's North Island, owned by Genesis, a listed New Zealand generation, wholesale, and retail energy company.

Who is delivering a Bess system in NZ?

Saft, a subsidiary of TotalEnergies, is delivering this system, and Meridian anticipates that the BESS will generate annual revenues of up to NZ\$59.3 million. Transpower, a state-owned transmission company, is noted to have played a key role in planning, construction and commissioning.

When will Saft be launching a Bess system?

Saft will provide a turnkey solution based on 70 of its Intensium Shift+ lithium-ion battery containers combined with power conversion and control systems. It is planned to come online in the third quarter of 2026. "This will be Saft's third utility-scale BESS to support the New Zealand grid", said Hervé Amossé, Saft EVP Energy Storage System.

What is a Bess battery?

The BESS consists of 80 containerised lithium-ion Saft Intensium shift battery modules from French energy storage systems maker Saft with grid integration support from national grid operator Transpower, which has also played a key role in planning, construction and commissioning.
