

New Zealand solar glass exports increase significantly

Overview

Why is the solar PV glass market growing?

Government rules that are favorable to the development of solar PV plants is one of the factors driving the growth of the solar PV glass market. Additionally, the market for solar PV glass is growing due to the surge in demand for solar systems on a residential, commercial, and utility scale.

Does New Zealand have a solar market?

However, the New Zealand solar market has obstacles to navigate, with the country having some of the lowest penetration rates for rooftop solar. Gillies highlights that only 3% of New Zealand households have solar PV modules, whereas its neighbour, Australia, has 40%.

Will Solar Photovoltaic Glass market grow in 2024?

These shifts together position the solar photovoltaic glass market for resilient growth throughout the decade. By glass type, anti-reflective coatings led with a 57% solar photovoltaic glass market share in 2024, while TCO glass is projected to expand at 22.46% CAGR through 2030.

What is the Global Solar Photovoltaic Glass market?

The global solar photovoltaic glass market is moderately consolidated: the five largest producers command about 64% of melting capacity, yet regional pockets exhibit differing dynamics. Chinese leaders Xinyi Solar and Flat Glass Group deploy scale as their chief weapon, targeting 32,200 tonnes per day of combined capacity by end-2024.
