

New energy storage policy in the Middle East

Overview

With ambitious targets like Saudi Arabia's 48 GWh storage goal by 2030 and the UAE's push for 19 GWh in flagship projects, battery energy storage systems (BESS) are no longer ancillary—they're the backbone of grid resilience, renewable integration, and net-zero ambitions. Is energy storage gaining traction in the Middle East?

With renewable energy projects expanding across the region, energy storage has started gaining traction. Unlike Europe, North America, and Asia, where renewable energy and storage technologies are well-established, the Middle East remains in the early stages of development.

Is large-scale energy storage a viable option in the Middle East?

Until recently, large-scale energy storage was barely a consideration in the Middle East, where fossil fuels have long dominated power generation. With renewable energy projects expanding across the region, energy storage has started gaining traction.

Why is Middle East energy launching a 49th consecutive year in Dubai?

“The continued organization of Middle East Energy for a 49th consecutive year in Dubai reflects international confidence in the emirate as a strategic centre for conferences and exhibitions, and reinforces its role in leading the global dialogue on energy security and sustainability,” stated Sheikh Ahmed.

Should a MENA energy storage alliance be established?

A report by Arab Petroleum Investments Corporation recommends establishing a MENA Energy Storage Alliance, supported by public-private partnerships, and offering financial incentives like tax benefits and green financing to attract private sector investments.

New energy storage policy in the Middle East

[The case for utility-scale storage in the ...](#)

May 3, 2024 · Saudi Arabia's large scale energy storage market is expected to developed at an unprecedented pace in the years to come, according ...

Middle East Archives

Oct 21, 2025 · Despite lowering its forecasts due to US-led tariff and policy disruptions, BNEF says 2025 will be a record-breaking year for energy ...

[The Middle East's Solar Shift: From Oil to Energy Powerhouse](#)

Mar 17, 2025 · The Middle East, long defined by its oil wealth, is now emerging as a global leader in solar power. Once ...

[Middle East Energy 2025 in Dubai spotlights energy storage ...](#)

Apr 8, 2025 · Middle East Energy (MEE) 2025 launched at the Dubai World Trade Centre (DWTC), showcasing the future of energy storage and battery technology--an essential ...

[A review and assessment of energy policy in the Middle East and North](#)

Mar 1, 2017 · A review and analysis of the social, political and economic factors that are impacting regional energy policy is provided and followed by analysis of regional energy policy with ...
