

# Outdoor Commercial Inverter

## Overview

---

What is a commercial solar inverter?

The commercial inverter from KOSTAL supports a system voltage of up to 1100 volts DC. In this way, the solar inverter for the commercial sector ensures reliable and constant energy yields, meaning that the rated output of the company's solar system is quickly reached and the output power continues to be utilised perfectly.

How much does a commercial inverter cost?

The prices are determined by brand, build quality, features, and size. For commercial systems with massive kW ratings, you will be paying anywhere from around R50,000 and much higher for even larger inverters. Whereas residential inverters typically starting from 3kW to a 10kW in size, you can expect the following price ranges:.

Which inverter is best for home & business use?

The Fusion Inverters are the best inverter for home and business use. We highly recommend these. A very popular choice because of their price , compared to previous Off-Grid inverters, they are far easier to install due to the fact you have everything in one box instead of separate components.

Why should you buy a small-medium commercial inverter?

Maximize energy production, safety and reliability with our range of easy to install inverters for small-medium size commercial projects. Reduce time onsite with installation validation. Go bigger with 175% DC oversizing, keep costs low with modular design and provide confidence with built-in safety features. Need Help?
