

# Overseas Home Energy Storage Processing Plant

## Overview

---

What is Tesla's first energy storage facility outside the US?

First Energy Storage Facility Outside the U.S. The Shanghai Megafactory will mark a pivotal step for Tesla as its first energy storage production site outside of the United States. This venture highlights the company's strategy to extend its influence and capabilities beyond traditional automotive manufacturing.

Why is Tesla launching a new energy storage facility in Q1 2025?

This venture highlights the company's strategy to extend its influence and capabilities beyond traditional automotive manufacturing. Anticipated to begin operations in Q1 2025, this facility will reinforce Tesla's role in the global energy storage market.

How successful is Tesla's Energy Storage Technology?

Tesla's energy storage technology has already achieved a high level of commercialization and market success in the United States, said Liu Qing, vice president of the China Institute of International Studies.
