

# Portable power bank for camping in Norway

## Overview

---

Are portable power banks good for camping?

Durable outer casings made from reinforced plastics or rubberized materials absorb shock better than standard consumer models. These features guarantee consistent performance throughout your camping adventures. I've outlined eight top-performing portable power banks that deliver reliable energy storage for your camping needs.

Which portable power banks are best for remote locations?

I've tested multiple portable power banks in remote locations, and the top performers include the Jackery Explorer 1000 v2 with 1070Wh capacity for high-demand devices, the GRECELL 300W station offering 230.88Wh with efficient MPPT solar charging, and the compact P201 providing 148Wh with multiple connectivity options.

What do car campers use their power bank for?

The vast majority of car campers are using their power bank for just one thing: keeping that phone charged. And even though you're off the grid (at least we hope), free from the YouTube autoplay and Facebook algorithm, you'll probably still need to use your phone for at least a couple of things. Photos. Alarm clock. Offline maps.

Do you need a power bank for a wilderness trip?

On the other hand, if you're planning to spend multiple days in the wilderness carrying a number of different devices (like a GPS, phone, GoPro and digital camera), then you're going to need one of the bigger power banks around (probably 20,000mAh+).
