

Prague emergency energy storage power supply

Overview

How did a power outage affect the Czech Republic?

On Friday July 4 a major power outage brought parts of the Czech Republic to a standstill, exposing serious vulnerabilities in the country's energy infrastructure. The blackout affected large areas of Prague and several surrounding regions, disrupting transportation networks, hospital operations and daily life for thousands.

What happened to the power grid in Prague?

Czech experts announced a sudden drop in the load on the power grid by 30%. "We are currently fixing a malfunction in the following areas: Prague 3, Prague 4, Prague 8, Prague 9, Prague 10. The estimated time of power supply restoration is 07/04/2025 at 14:00," Prague Energy reports. "I gave birth to you. ":

What caused a power outage in Prague?

"A major power outage occurred in most of Prague shortly after noon, affecting areas such as the city center, Sporzhilov and Jizhni Place," the Prague radio station reports. The energy company Prague Energy reports that the shutdown occurred due to a malfunction at the substation in Khodov.
