

Procurement of 120kW folding container for fire station

Overview

What is a container fire pump?

CONTAINER FIREPAK 1200 fire water pumping unit Consisting of one skid mounted diesel engine close coupled to a fire water pump by means of a flexible coupling. The container is designed with an integrated fuel tank for initial start up and approx. 1 hr autonomous running.

Can a fire pump be installed in a shipping container?

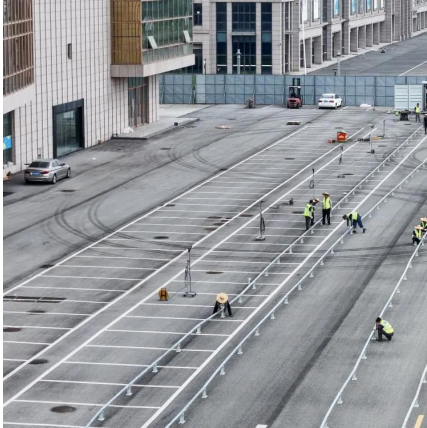

A complete fire pump set inside a standard shipping container. Both 20 ft and 40 ft containers available, depending on equipment needs. The entire containerized solution can be removed easily, shipped to a new location, and reinstalled. Ventilation with exhaust fans to control internal temperature and enough air supply for a diesel engine.

What is a container firepak 1200?

The CONTAINER FIREPAK 1200 unit is designed for on- / offshore purposes and marine applications. For marine purposes the unit can be used to fulfill Fi-Fi class I notification requirements. In order to fully comply two containers are required to get the right amount of water flow.
