

Seoul original inverter device manufacturer

Overview

As a leading company in the research and development of power conversion devices, EKOS CO., Ltd develops and supplies solar inverters from the smallest capacity to the largest capacity in the world. Who makes solar inverter in Korea?

DASSTECH CO., LTD. DASSTECH CO., LTD. DASS Tech CO. LTD. is the NO.1 solar inverter manufacturer in Korea. DASS Tech invests more than 5% of its annual sales in R&D through constant investment in R&D. It has obtained 28 domestic patents, 1 US patent, 1 trademark, and 2 design rights.

Who is the best solar inverter company in the world?

In addition, DASS Tech Co., Ltd., which has the largest solar inverter manufacturing plant in Korea, provides solar inverter sales and after-sales service (AS) as well as solar power generation system design, construction, and maintenance. As a specialized photovoltaic company, we are reborn as the world's best solar company.

Where are solar inverters located?

Microinverters are located on the roof near the solar panels, due to which these inverters are more efficient than string inverters when it comes to converting energy. Solar systems with microinverters can still generate electricity, even if one or two panels do not perform properly.

What is a microinverter solar system?

Typically, microinverters are "distributed" inverters. Solar PV systems with microinverters have a small inverter installed for each individual solar panel. Instead of sending energy from every panel to a single inverter, microinverters convert the DC energy to AC energy on the roof itself.
