## Overview

---

Why should Serbia invest in solar power plants?

Located throughout the country, these solar power plants will help Serbia improve energy security, avoid expensive energy imports, and achieve electricity independence at an affordable price. The modernization of the EPS and renewing Serbia's Energy Generation Portfolio will have a lasting impact on communities throughout Serbia.

How much power does Serbia have?

It currently has a total capacity of approximately 3490 megawatts (MW) of renewables, with 2342 MW in hydropower in 2019 according to the European Energy Community. Serbia announced plans to install new hydropower plants and two existing dams, and to rehabilitate a further 15 existing power plants totaling around 30 MW with EBRD financing.

What is Serbia's energy investment plan?

The Ministry of Mining and Energy has announced a €15 billion investment plan for the electricity sector in next several years, expecting to reach more than 3 GW of renewable energy production plants. The main players and investors in the Serbian Energy Sector are:.

What jobs will be created in Serbia?

In addition to helping Serbia reach its National Energy and Climate Goals, local jobs will be created in fields including Surveying, Spatial Planning, Power System Assessment, Legal/Regulatory Tasks, and Project Construction. UGT Renewables Serbia Solar is a ground-mounted solar project, which is planned over 2,000 hectares.
