## Overview

---

Who is Sineng electric?

Sineng Electric is a global leader in power electronics, specializing in the development and production of advanced photovoltaic (PV) inverters, energy storage inverters, and digital power products.

Is Sineng a good power inverter manufacturer?

Known for its engineering excellence, consistent quality, and brand influence, Sineng has earned recognition as a BloombergNEF Tier 1 power inverter manufacturer and ranked No. 4 globally in PV inverter shipments for two consecutive years in 2023 and 2024.

Why should you choose Sineng's central & string inverter solutions?

Both the central and string inverter solutions demonstrate robust grid-forming capabilities, reinforcing Sineng's technological leadership in grid stability and energy resilience.

How are grid-connected inverters programmed?

The grid-connected inverters were programmed with simultaneous three-phase latched current limiting with an inductive fault current reference peak magnitude of 25 A. The overcurrent threshold and reset level were set at  $i_{thld} = 19$  A and  $i_{reset} = 17.1$  A, respectively.
