

Solar container outdoor power system in Antwerp Belgium

Overview

What are the major solar projects established in Belgium?

In this article, we shall discuss some of the major solar projects established in Belgium. Established close to the town of Lommel in the Flemish region, Kristal solar Park is gigantic. It has a capacity of 100 MW and is one of the largest ground-mounted solar parks in the country.

Will there be a shore power supply at Antwerp Airport?

Together with the Port of Antwerp, plans exist for a shore power supply at the terminal, whereby ships calling at the terminal will be connected to the electricity grid.

Why should international investors invest in Belgium's solar panels?

The country's accelerated development of its solar industry motivates international investors to invest in Belgium's PV markets. The solar PV subsidies are another factor for an immense increase in solar panel sales across the country which can be seen in the reduced price of 93 EUR per MWh since 2013 in Belgium.

Why is solar so popular in Belgium?

The main reason for the success of solar in Belgium is the collective awareness of the global renewable energy initiative among the authorities. The country's accelerated development of its solar industry motivates international investors to invest in Belgium's PV markets.
