Solar energy system outdoor control box

Overview

What is a solar enclosure?

The enclosures are specifically approved for use in solar power systems, designed in one piece monobloc, which provides excellent protection for inside electrical and electronic components. Also it has IP66 sealing and IK10 maximum possible resistance. Do you need extra info?

What is a Sunbox cabinet?

Our Sunbox cabinet series given its design, finishing and sealing is specially designed for solar photovoltaic, thermal, wind installations and outdoor areas with extreme climatic conditions of rain, wind, dust and corrosion. Do you need solutions?

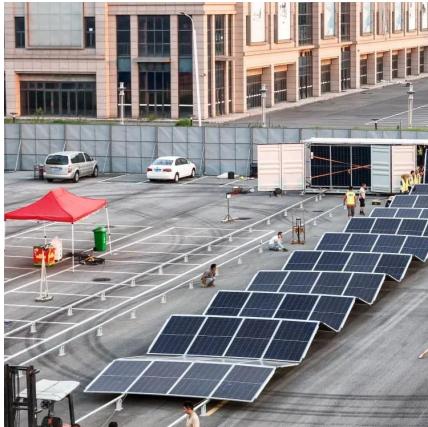

Custom made based on your needs.

Why should you choose a solar thermal and tracking enclosure?

In order to ensure continued operation of critical electronic and networking equipment in these applications, designers of Delvalle must select the ideal electrical enclosures that assist with solar thermal and tracking systems. Solar energy is one of the fastest growing renewable energy segments.
