

Solar power solutions factory in Laos

Overview

Is SolarSpace launching a 5GW high-efficiency solar cell plant in Laos?

SolarSpace, a China-based PV cell and module manufacturer, announced the first phase of a 5GW high-efficiency solar cell plant in Laos, giving momentum to its overseas production capacity. SolarSpace marked the start of the first phase of its 5 GW high-efficiency solar cell plant in Laos at a recent launch event in the Saysettha Development Zone.

Why is SolarSpace launching a solar project in Laos?

The company said it has an experienced production and management team in Laos, and those people will play a leading role in the development of the nation's clean energy industry. Laos is a new manufacturing location for SolarSpace, which has traditionally been more active in solar projects in the country.

Where will SolarSpace manufacture high-efficiency solar cells?

The plant will manufacture high-efficiency cells, although the specific type was not disclosed. The factory is SolarSpace's first PV manufacturing plant in Laos and its latest overseas manufacturing facility. It recently opened its first overseas plant, a 1.2 GW solar module factory in Cambodia.

Is Laos a viable destination for solar investment?

While the destination of SolarSpace's Laos-made modules remains unspecified, the establishment of a major manufacturing facility in the country marks a pivotal step in showcasing Laos as a viable destination for substantial solar investments, underlining its potential as a significant player in the global solar arena.
