# **Solar power storage batteries in Puerto-Rico**

## Overview

---

What is Puerto Rico's battery energy storage system?

The Puerto Rico Electric Power Authority's battery energy storage system is a 20,000kW energy storage project located in Puerto Rico. It was announced in 2018 and will be commissioned in 2020. The Puerto Rico Electric Power Authority owns the system (100%).

What is solar power in Puerto Rico?

Solar power is a renewable energy source that has been booming in Puerto Rico since the hurricane. Across the island, individuals, communities, and businesses are installing solar panels and battery systems. At the Community Foundation of Puerto Rico, Javier Rivera is working on solar systems with 50 mostly rural, underserved communities.

Can solar power be used as a shelter in Puerto Rico?

A solar power system in its entirety can serve as a shelter in Puerto Rico, according to the person in charge. With abundant sunlight available, solar power has been booming in Puerto Rico since the hurricane. Across the island, individuals, communities, and businesses are installing solar panels and battery systems.

Are solar and storage a necessity in Puerto Rico?

Rúa-Jovet said blackouts have become so routine that solar and storage are now a necessity in Puerto Rico and demand is unlikely to be slowed by changes in federal policy — some of which were enacted through the tax code, which has limited impact on the territory.
