Solomon Islands telecommunications operators base station sharing

Overview

How much money does the Solomon Islands national broadband infrastructure project make?

Meanwhile, the Solomon Islands National Broadband Infrastructure Project (SINBIP) has started earning income, with 25 operational towers bringing in SBD\$2.3 million in gross revenue as of December 2024. STL, the state-owned company managing the project, expects revenue to increase as more towers become operational.

Does Solomon Islands have a telecommunication policy?

Although a World Trade Organization member, Solomon Islands has made no telecommunication commitments under the General Agreement on Trade in Services.

Who owns Solomon Islands towers?

In terms of ownership, the government had already established Solomon Islands Tower Company Ltd, trading as “Solomon Tower Limited” (STL), as the State-Owned Enterprise to own and manage the tower sites. The STL Office is located in the Eastern Wing (upstairs) of the Solomon Post building.

Why is Internet not available in Solomon Islands?

Internet access remains unaffordable for most Solomon Islanders due to the country’s total dependence on costly, limited satellite connectivity, and the lack of competition. For this reason the future availability and affordability of mobile data services will be vital to the growth of broadband internet in Solomon Islands.
