

# Spherical household solar light

## Overview

---

Can a shapelight be used inside?

Shapelights can be used inside as mood lights for living spaces or night lights for landings or children's bedrooms. You can plug your Shapelight directly into a plug socket or charge it by USB and use it as a portable indoor light if there is no plug socket nearby. A full USB charge takes just a few hours and will provide 50 hours of illumination.

How much does a solar light weigh?

the light weighs about 1.8 kg and there is stake included which can hold it in place. There are small feet on the bottom of the light that will keep it stabilised and prevent it from being blown away. Question: Hi, I want to put these on top of the piers in an outside wall, were is the solar panel please?

Answer:.

What colour are shapelights?

Shapelights bring atmosphere to any indoor or outdoor space. They can be set to gently cycle through red, green, blue, purple, pink and light blue or you can set them to stay on your favourite colour. Shapelights also offer a brighter white and warm white setting which are noticeably brighter than the colours.

How much does a shapelight weigh?

Shapelights are made from an extremely tough PE plastic and are strong enough to be used as illuminated furniture pieces. The Shapelight Cube and Cylinder can both easily double up as a small table or seat for children or light adults. Question: Answer: Hi there, the light weighs about 1.8 kg and there is stake included which can hold it in place.
