

Swedish UPS uninterruptible power supply processing

Overview

What is an uninterruptible power system (UPS)?

Uninterruptible power system (UPS) (1) An electrical system designed to provide instant, transient- free backup power during power failure or fault. Some UPSs also filter and/or regulate utility power (line conditioning). (2) A Device whose sole purpose is to save your equipment, your data and your job. User replaceable.

Where can I buy UPS - uninterruptible power supplies?

Find a huge range of UPS - Uninterruptible Power Supplies at Farnell Sweden. We stock a large selection of UPS - Uninterruptible Power Supplies, including new and most popular products from the world's top manufacturers including: Apc, Schneider Electric, Siemens, Phoenix Contact & Ea Elektro-automatik BR1500GI.

What is uninterruptible power?

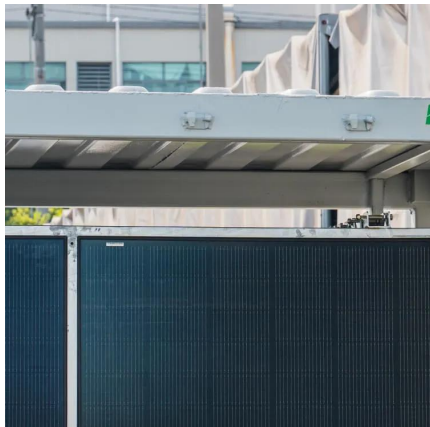

In larger installations, uninterruptible power is much more than a small-scale battery UPS that keeps an alarm system running for an hour or two despite a power cut. Redundancy in the form of backup power systems is not uncommon when the need is greater.

Who needs uninterruptible power supply?

Companies and socially critical organisations in certain areas have a requirement for uninterruptible power supply. Hospitals are an example where ensuring uninterruptible power is more important than anything else. Equipment must not be exposed to power outages.
