

# **Swedish emergency energy storage power supply procurement**

## Overview

---

Does Sweden have a strategic electricity reserve?

The Commission has approved, under Article 107 (3) (c) TFEU and the CEEAG, a EUR 300 million Swedish measure establishing a strategic electricity reserve to safeguard security of supply in emergency situations.

Will Svenska Kraftnät replace the Swedish power reserve?

As part of its efforts to create a secure electricity supply, on 15 December 2022, the government commissioned Svenska kraftnät to propose capacity mechanisms with the prerequisites to replace the Swedish power reserve and ensure resource adequacy after 16 March 2025 in accordance with the reliability standard for Sweden.

Does Sweden have an electricity surplus?

Sweden is an elongated country with changing requirements for electricity generation and electricity use. At the time of producing this report, Northern Sweden (SE 1 and 2) has an electricity generation surplus that is exported to the consumption-dominated deficit area in southern Sweden (SE 3 and 4).

Does Sweden have a strong electricity supply?

For Sweden, forecasts and scenarios indicate strong growth in electricity consumption, which is not accompanied by a corresponding increase in production capacity that can meet demand during periods of system stress.
