Switzerland Zurich solar container energy storage system Field

Overview

What is solar & storage live Zurich?

We're excited to announce the launch of Solar & Storage Live Zurich! Due to the increased demand in Europe, we decided it's time to create another forward-thinking, challenging and exciting renewable energy exhibition that celebrates the technologies at the forefront of the transition to a greener, smarter, more decentralised energy system.

What is solar & storage live?

In summary, "Solar & Storage Live" offers a premier international platform for knowledge exchange, networking, and business transactions in the fields of solar energy and storage, significantly contributing to the advancement of sustainable energy solutions. The Solar & Storage Live will take place on 2 days from Wednesday, 16.

What is the future of solar energy in Switzerland?

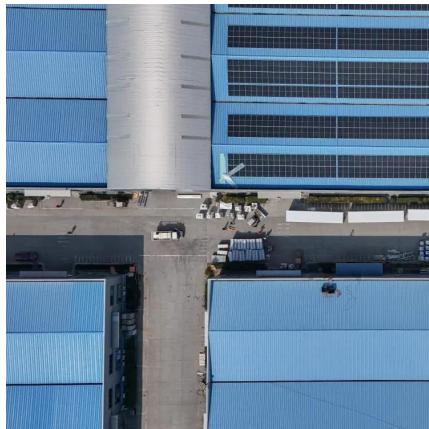

Solar PV power had the dominant share in the total renewable power installed capacity of Switzerland. This share is expected to further increase by 2030. Electricity Generation in Solar Energy market is projected to amount to 2.00bn KWh in 2023.

What is the energy transition in Switzerland?

The energy transition is currently being implemented in Switzerland through the Energy Strategy 2050, with the goal of climate neutrality. Only 4 of Switzerland's 5 nuclear power plants have been in operation since 2020 and renewable energies' share of total final energy consumption rose to around 28% in 2021.
