

T1000 multifunctional 1000w portable power sine wave

Overview

How much power does a T-1000 have?

One of the big features of the T-1000 is its relatively compact size and lightweight. It measures 293 x 200 x 205mm centimetres and weighs just 6kg. Inside, the battery capacity is 999Wh, and it can output up to 1000W with a 2000W surge capacity, which, considering the size, is really quite impressive.

How many devices can a grecell T1000 power station Power?

The GRECELL T1000 Portable Power Station is designed for versatile usage and full load operation. With a 999Wh capacity, the power station can efficiently power up to ten devices simultaneously, making it a reliable choice for both commercial and residential purposes.

How efficient is the grecell T-1000 inverter?

Customer feedback highlights the GRECELL T1000's efficiency in powering devices while enjoying the outdoors as well as its practicality for emergency backup power at home. The GRECELL T-1000 comes with a 999Wh capacity, a 1000W inverter with 2000W peak power, and three ways to recharge.

Can a T-1000 charge multiple devices?

When used to power multiple devices, the T-1000 is able to charge mobile phones, drones, cameras, and 18V drill batteries without issue and it will run any device that draws less than 1000W. In terms of performance, the T-1000 delivers as advertised, with no notable problems.
