

BUHLE POWER

Taipei New Energy Storage Company

Overview

What is Taipower's new energy storage system?

The new energy storage system adds power for renewable energy! In response to international energy transitions and net-zero emission trends, Taipower is actively developing diverse energy solutions.

Which energy storage technology providers are active in Taiwan?

Several energy storage technology providers, such as Fluence, flow battery manufacturer Invinity and NHOA, are active in the market. It is worth noting that the Taiwan energy storage market is set to become a focus for Billion Electric with plans to develop 1.2GWh local battery system production capacity.

Will Taiwan need 90gw of energy storage by 2030?

TCC chairman Nelson Chang said in 2022 that Taiwan will need 90GW of energy storage by 2030 to integrate new renewable energy capacity. Several energy storage technology providers, such as Fluence, flow battery manufacturer Invinity and NHOA, are active in the market.

How has Taipower achieved a milestone in its self-built energy storage initiatives?

Projects such as the Luyuan and Longtan energy storage systems have been completed, and with the Dongshan energy storage system now online and integrated into the grid, Taipower has officially achieved a milestone in its self-built energy storage initiatives.
