

The latest ranking of solar container battery fields

Overview

What are the top 10 energy storage battery cells shipments?

The top 10 global energy storage battery cells shipments include well-known companies such as CATL, CATL, BYD, and EVE. Through continuous innovation and technological breakthroughs, they have become a leader in the energy storage battery industry and have made important contributions to the development of the global energy storage field.

When will South Korean energy storage cells return to the top ten?

However, as U.S. energy storage cell capacity from companies such as LGES is gradually released in 2H25 and multiple large-scale projects enter the delivery phase, South Korean manufacturers are expected to return to the top ten by the end of 2025 or in 1H26. In 1H25, global utility-scale storage cell shipments reached 218.57 GWh, up 110.15% YoY.

Who makes the most energy storage cell shipments non-China?

The top three manufacturers in energy storage cell shipments non-China markets were CATL, BYD, and CALB. At present, most non-China cell shipments from Chinese-funded manufacturers are achieved through the commissioning of non-China energy storage projects by leading Chinese system integrators.

Which solar companies are planning their own battery cell production?

Canadian Solar, via its BESS subsidiary e-Storage, is also sixth in the global ranking. They also said that such companies are also planning their own battery cell production, mirroring their vertical integration strategy in the PV module supply chain.
