

# Which is the largest energy storage power station in Amsterdam

## Overview

---

Where is the largest battery energy storage system in the Netherlands?

German energy major RWE AG (ETR:RWE) has officially opened one of the largest battery energy storage systems (BESS) in the Netherlands, a 35-MW/41-MWh facility at its Eemshaven power station. The Eemshaven battery energy storage system in the Netherlands. Image by: RWE AG.

What is a battery energy storage system (BESS)?

RWE has officially commissioned its first large-scale Battery Energy Storage System (BESS) in the Netherlands at the Eemshaven power station. With a total capacity of 35 megawatts (MW) and a storage capacity of 41 megawatt hours (MWh), the system will be crucial in balancing the power supply and demand within the Dutch electricity grid.

Will Amsterdam Energy Arena BV use its own energy?

“Thanks to this energy storage system, the stadium will be able to use its own sustainable energy more intelligently and, as Amsterdam Energy Arena BV, it can trade in the batteries’ available storage capacity.” says Henk van Raan, director of innovation at the Johan Crujff Arena.

Where is RWE's first battery energy storage system located?

RWE has officially inaugurated its first large-scale battery energy storage system in Eemshaven, Netherlands, with a capacity of 35 MW and 41 MWh of storage. The.

## Which is the largest energy storage power station in Amsterdam
